Application

- Huwa-San is a uniquely stabilized powerful hydrogen peroxide cleaning your drip hoses, silos and other parts of the water system.
- Huwa-San has proven itself in removing biofilm and preventing blockages in the water system.

Properties:

- Sustainable and proven to be effective
- Chlorine-free, no added organic compounds and acids
- No harmful by-products
- No traceable residue in the crop
- Active at extreme pH values and high temperatures
- Huwa-San has a long-lasting and controlled effect
- Odourless, colourless, non-corrosive at use levels

Hydrogen peroxide test

Use these test strips to quickly and accurately determine the concentration of hydrogen peroxide (H₂O₂) in the solution. Measuring gives you the certainty about the activity of the solution.

Advantages

- Removes biofilm and prevents regrowth
- Prevents clogging of the watering
- Reduces production loss by failure
- Ensures optimal supply of fertilizers
- Prevent the spread of germs
- No harmful substances
- Prevents the growth of algae
- Non corrosive
- Quickly and easily measurable
- Odourless and colourless
